Intellectual Property

- Intellectual property (IP) refers to the **creations of the mind**: inventions, literary and artistic works, and symbols, names, images, designs, etc.
- Therefore, intellectual property belongs to the **intangible** asset category.
- **Intellectual Property Rights (IPR)** can be defined as the exclusive legal rights given to people over the creation of their minds for a certain period of time.

The wealth that cannot be stolen, neither abducted by state, nor can be divided amongst brothers, neither it is burdensome to carry, the wealth that increases by giving.
That wealth is education and is supreme of all possessions

Section 48- Patents Act

- Patents confer a bundle of rights—the right in a product or a process to:
 - Make
 - Use
 - Offer for sale
 - Sell or
 - Import
- Exclusive right to exclude third parties

I do not think there is any thrill that can go through the human heart like that felt by the inventor as he sees some creation of the brain unfolding to success... Such emotions make a man forget food, sleep, friends, love, everything.

Don't Reinvent the Wheel

You don't have to invent the idea.

McDonald's did not invent hamburgers and Starbucks did not invent coffee. Instead, they pursued markets that already exist and did everything better.
