Conduction of Crossword Competition on “Technology Development and general awareness”

Crossword on the theme ‘Technology Development and general awareness’ was organized by the Department of CSE on 31st March 2023, under IIC and G-20 Activity for dissemination of information about the significance of India's G20 Presidency. In this event around 40 students of CSE participated and the winners were felicitated with certificates. This crossword puzzles were meant to test, challenge and push the students in ways that are both rewarding and satisfying. It is ideal for those who enjoy learning about technical words. All it takes is some dedicated focus on fundamentals and working the clues. Crosswords are a great way to unwind and also keep the mind sharp and engaged. The event was coordinated by Prof. Priyank Nayak, Prof. Vijendra Palash, Prof. Neerja Dubey.

Book Publication

The book was published by Dr. Ruchi Jain, Associate Professor, Department of Computer Science & Engineering, Lakshmi Narayan College of Technology & Science, Bhopal under the publication of “Ram Prasad & Sons, Bhopal”. This book aims to give an overview of the Object-Oriented programming paradigm such as C++. In this book, the concept of data structures was elaborated which refer to the way data is organized and stored in computer memory. The choice of data structure can have a significant impact on the performance and efficiency of a program. In programming, it is important to choose the appropriate data structure based on the problem to be solved and the characteristics of the data being processed.
